

What lessons can we learn from the global implementation of SFDs?

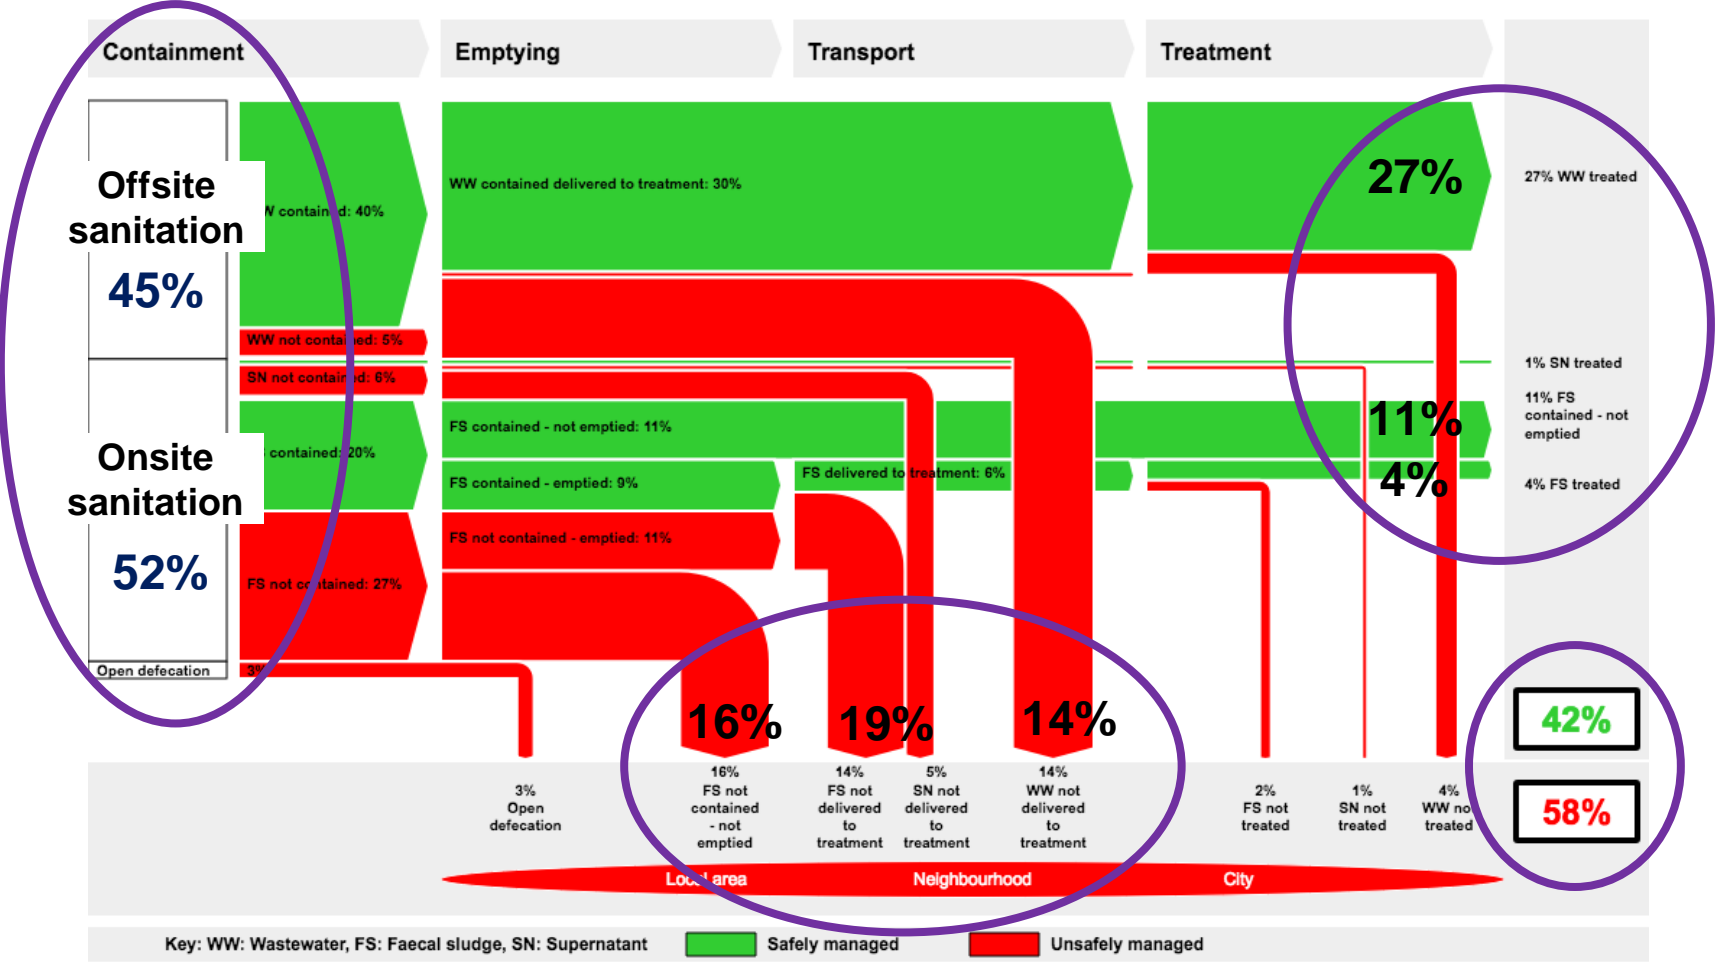

Andy Peal – Independent Consultant
SFD Week: April, 2019

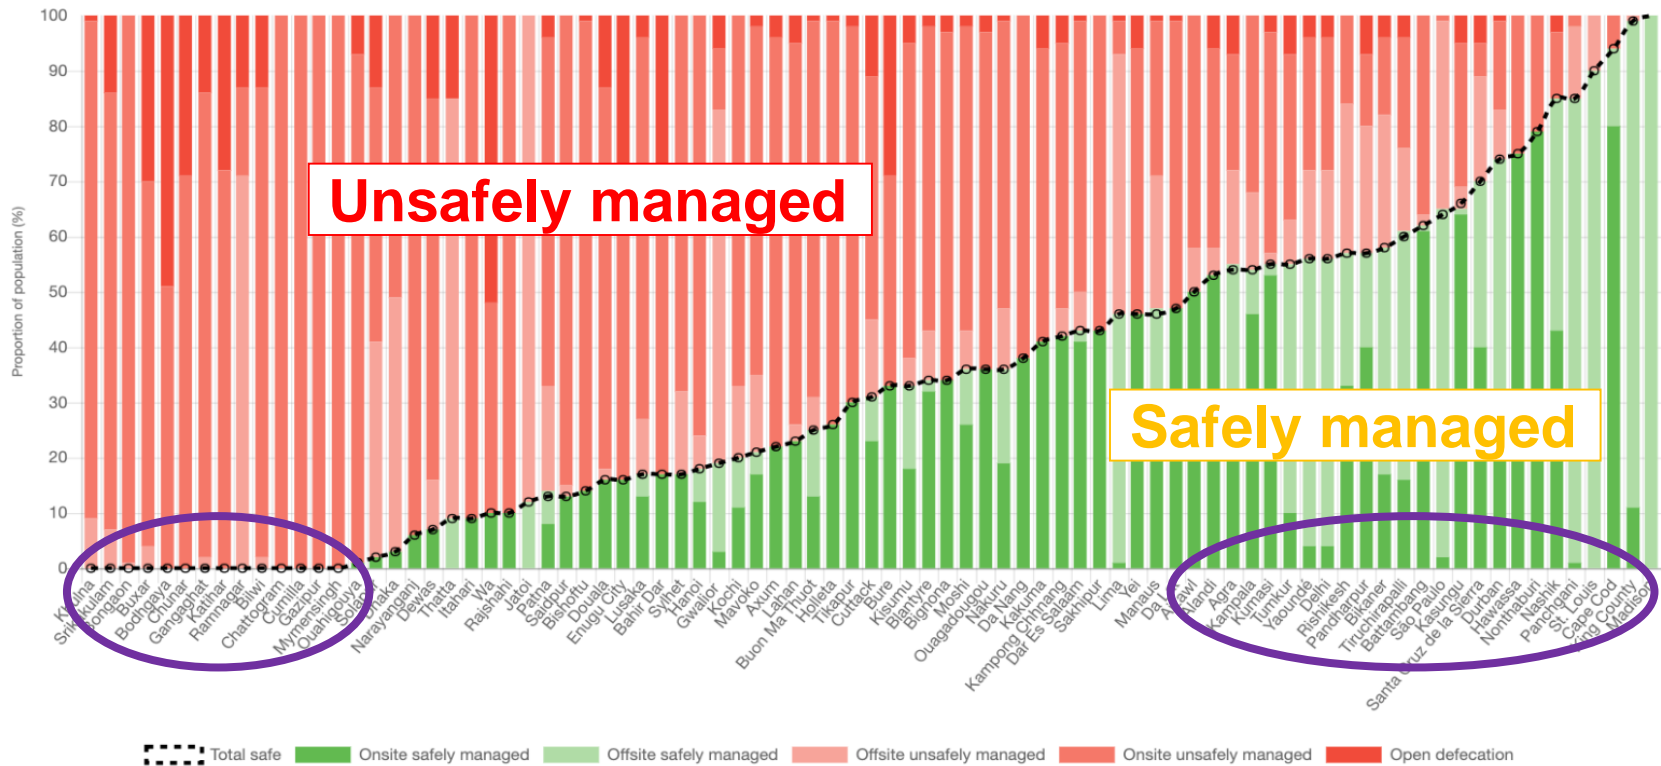

What can we learn from the data compiled so far?

- To date SFD-PI has supported SFD process in 84 cities
- Learning topics:
 - SFDs at city, national and regional levels?
 - Where to focus interventions?
 - What trends are emerging?
 - How can we link with or support initiatives?
 - How to increase database?
- Summary

Global SFD: 84 cities (population 111 million)

Proportion of population with safely managed sanitation by city (84 cities)

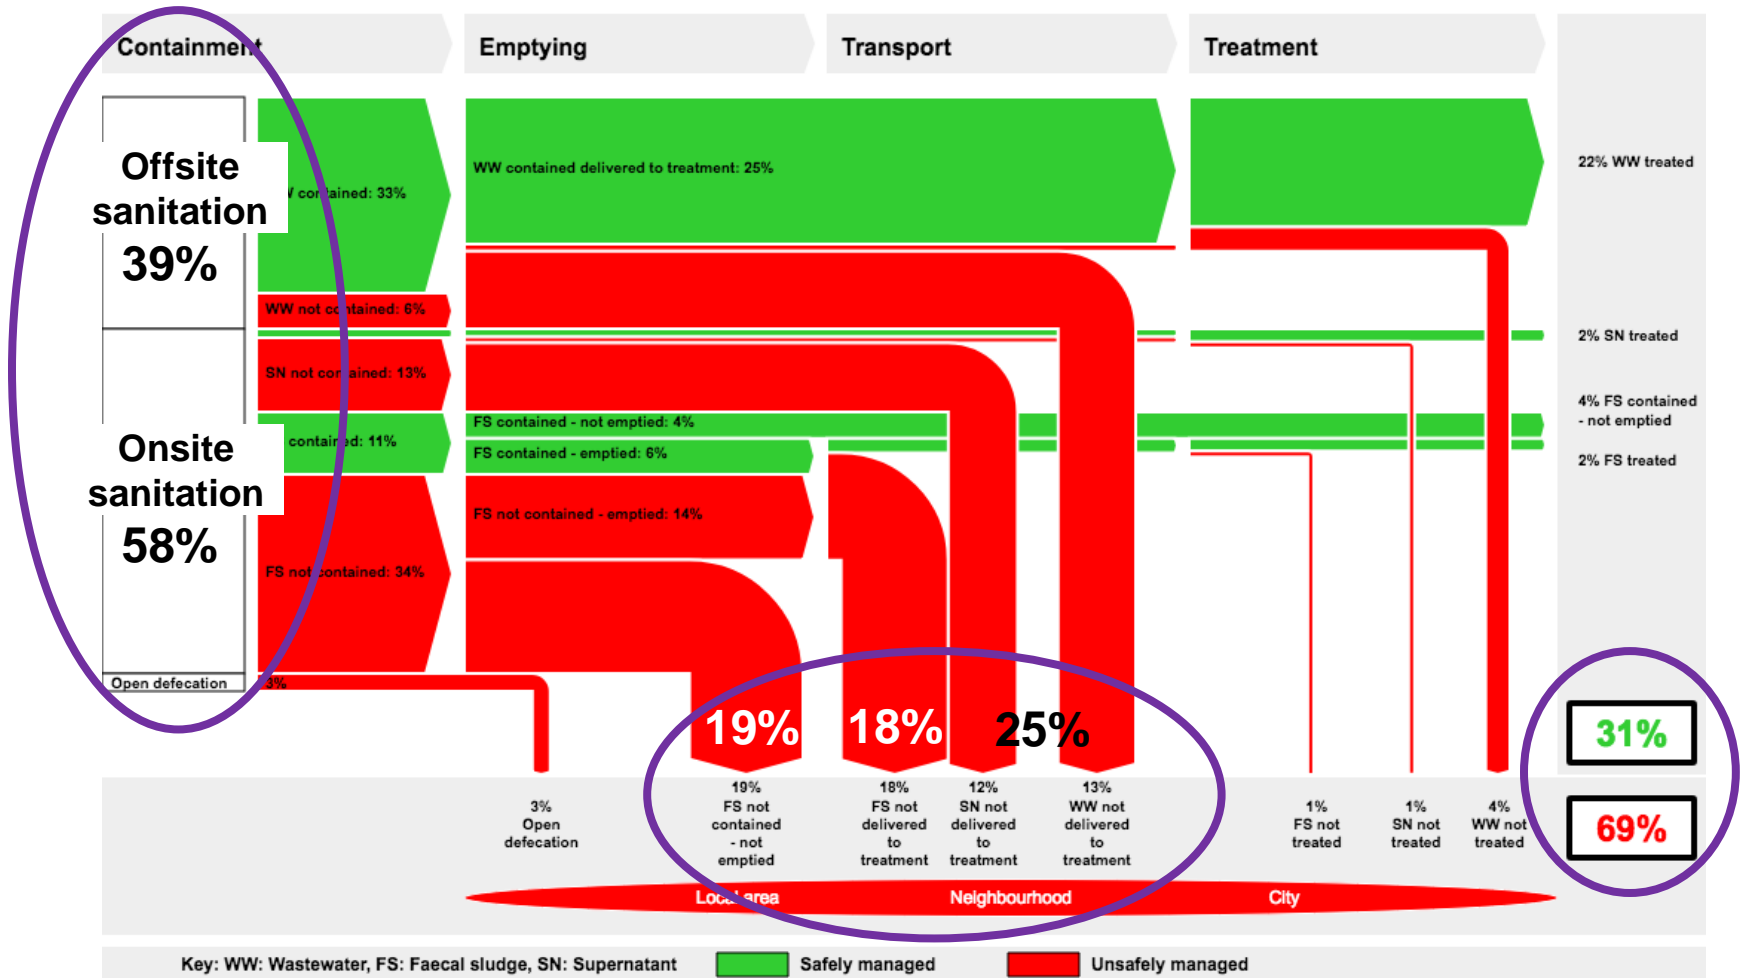

Proportion of population with safely managed sanitation (onsite only) by city (84 cities)

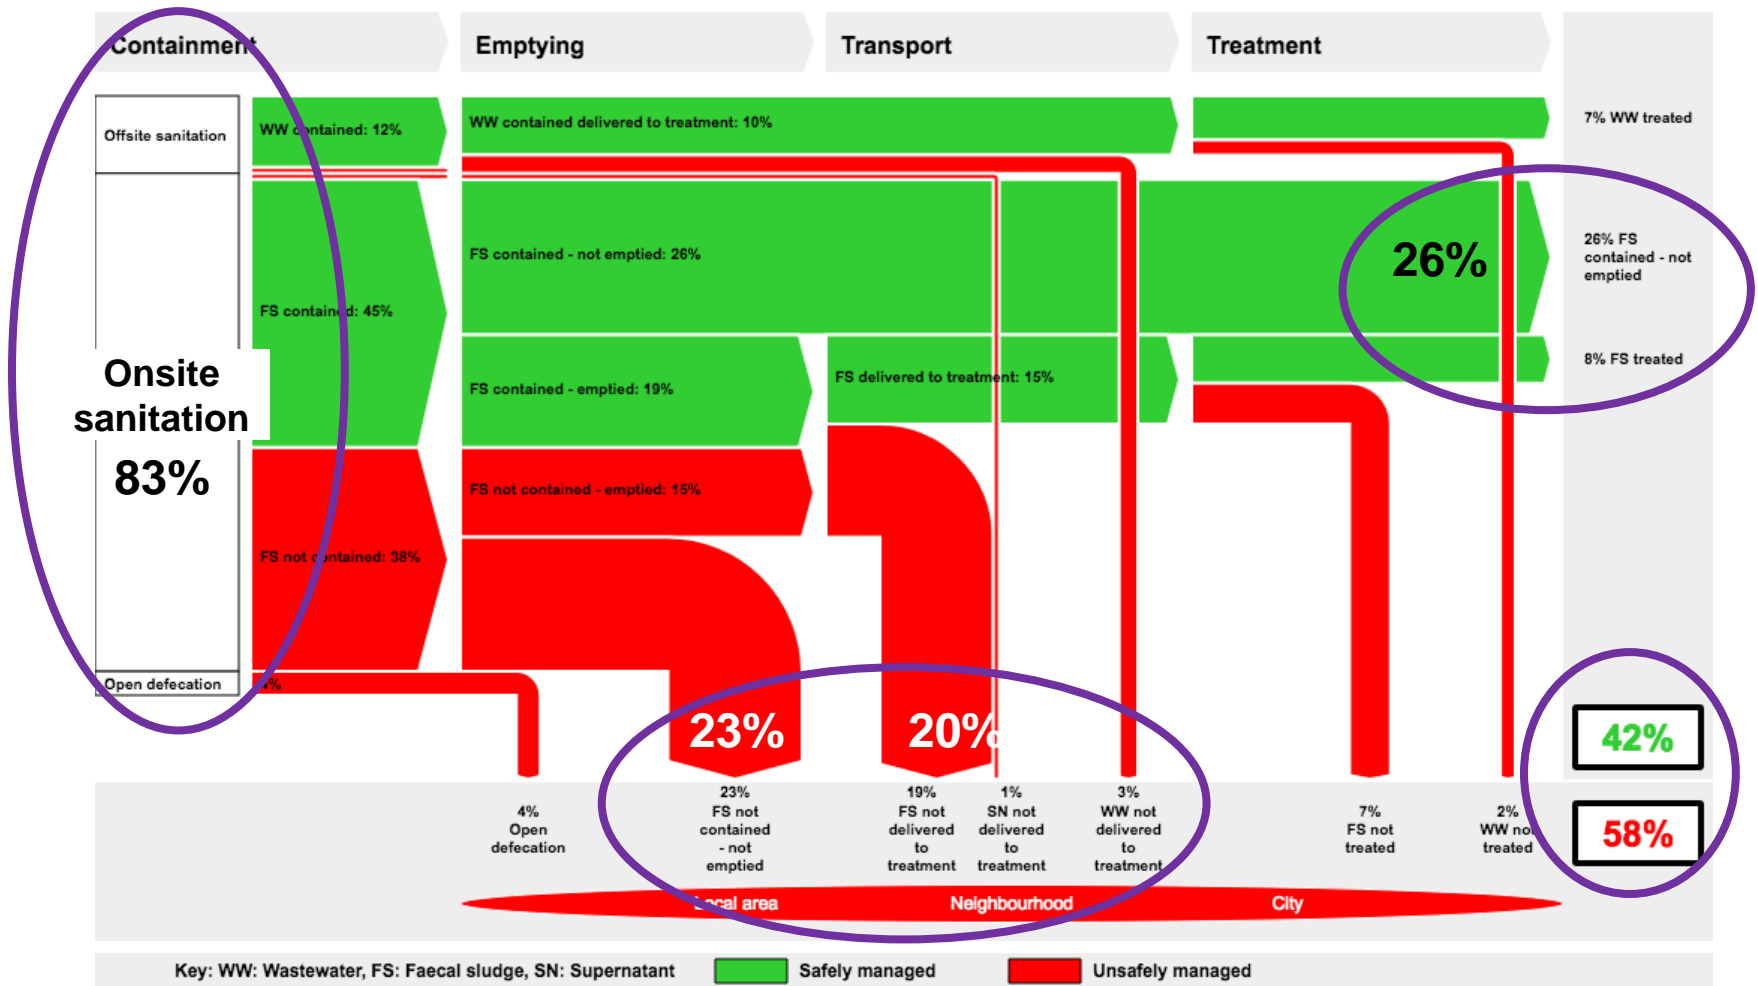

Proportion of population with safely managed sanitation (offsite only) by city (84 cities)

Asia & Pacific SFD: 48 cities (population 51 million)

Sub-Saharan Africa SFD: 26 cities (population 31 million)

SFDs Worldwide

Region	Reviewed SFD	Draft version available	Under preparation
Asia & Pacific	48	4	4
North America	4	0	0
Latin America & Caribbean	6	2	4
Sub-Saharan Africa	26	0	11
Middle East & Northern Africa	0	3	5
Total	84	9	24

Summary

- City SFD helps identify where interventions required and priorities
- Provides a snapshot of current situation, therefore important to understand context
- Supporting advocacy at city, national and regional level, including global sector initiatives (eg JMP)
- Methodology established, focus now on increasing use and therefore larger database
