

IHE Delft
Institute for Water Education

IHE Delft Institute for Water Education is the largest international graduate education institute in the field of water. The institute confers fully accredited MSc degrees and PhDs.

Since 1957 the Institute has provided education to more than 23,000 water professionals from over 190 countries, the vast majority from Africa, Asia and Latin-America.

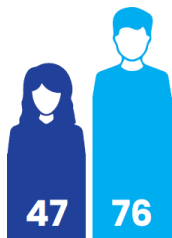

The Institute has 98 PhD candidates enrolled in water-related research. It conducts research and capacity-development projects throughout the world.

- ✓ Active career coaching

- One year / 68EC
- Two year research master / 120EC
- starting yearly in **November**

Water and Development Partnership Programme

As programme we believe that bringing together **inclusive partnerships and diverse knowledge** is key to solving water and development challenges.

We **fund bold, creative and transdisciplinary projects** that combine research, education and capacity-strengthening activities.

Specific efforts to **fund and support women-led projects** and provide education and research opportunities for women working in the water sector.

Next call for proposals: April 2024
