

# Criteria for Pre-Selection of FBIs

## Disclaimer

This document is an attachment to the service offer ***Construction/Rehabilitation of WASH Infrastructure in Faith-Based Institutions (FBIs)***, developed by the global programme *Sanitation for Millions*. The service offer is based on implementation experiences gathered by the programme in Jordan, Pakistan, and Uganda. Its development is part of the commission through the Federal Ministry for Economic Cooperation and Development (BMZ) in 2022. Purpose of this specific service offer is to give an overview of relevant background information, important minimum standards, and necessary working steps related to construction and rehabilitation of water, sanitation, and hygiene (WASH) infrastructure in FBIs.

## Criteria for Pre-Selection of FBIs

- The FBI must be a governmental FBI.
- The FBI building must be in a safe area.
- The FBI building must be in a target area of the project.
- The beneficiaries' numbers should be relatively high.
- The FBI with higher number of vulnerable persons with special needs should be prioritized.
- The official staff at the FBI must be cooperative.
- The management of the FBI must be willing to allocate a specific amount of the budget to consumables as soap and for cleaning/maintenance.
- The management and staff should be willing to implement additional awareness activities.
- Based on site assessment, the need for improved WASH at the FBI must be high.
- FBIs where the complete sanitation chain can be fulfilled (in the sense of safely managed sanitation) should be selected. If the FBI cannot fulfil the complete sanitation chain, possible options for bridging existing gaps should be considered during the selection process.
- The overlap with measures by other organizations and by the respective national ministry must be avoided unless synergies can be created.
- Suggestions by the respective partner of the project should be considered during the selection process.
- Approval from the respective counterpart must be acquired.
