

Peepoo in emergencies

Rapid and easy implementation

- Works in difficult situations such as floods and urban contexts
- Combine with hygiene promotion
- No water or fixed infrastructure
- Clean simple waste management

Individual in-shelter sanitation

- High user acceptance
- Easy access – any time day and night
- Safety for women and children
- Personal and individual freedom
- Clean and no smell

Effective disease prevention

- Immediate isolation of faeces
- Self-sanitising and Single-use
- Prevents open defecation
- Safe disposal
- No open pits with exposed excreta
