

### Application of MoUD norms at the city level assessment

Table: Supply Gaps: Norms vs. Actual Parameter (The case of Tirupati. 2013)

	MoUD Norm	TMC Baseline
<b>Access</b>	Public toilet @ every 1km on roads and in open areas	Limited spatial dispersion of facilities
<b>Gender</b>	1:1 ratio (M/F)	Over 50% facilities owned by TMC have more seats for men (50 seats for men : 33 for women)
<b>Disabled access</b>	Full provision for disabled	No facility is disabled-friendly
<b>Cleaning</b>	Cleaning after every use (~40 secs)	Poor Maintenance (cleaning done 2-3 times a day at maximum)
