

User's Guidelines Urine-Diversion Toilet

After every use of the toilet, wash your hands with soap.

After every use of the toilet, wash your hands with soap.

DO'S...

Feces are deposited into the back of the toilet bowl, and ladies urinate into the front part.

Ash or ash with soil is thrown over feces after each use. Do not pour water to the pit.

Men and boys must use the separate urinal.

Throw anal cleansing materials into a separate container next to the toilet. They should be burned or buried.

Throw childrens' feces into the feces drop hole.

Keep the lid of the toilet always closed to keep flies out of the pit.

DONT'S...

Do not defecate into the front (urine chamber) of the toilet.

Do not urinate into the back of the toilet bowl. Use the separate urinal.

Do not pour water with chemicals into the vault for cleaning.

Do not urinate in the anal cleaning area.

Do not throw cigarette butts into the vault.

Developed by GTZ Water Program in cooperation with the BIWRMT and Feed the Children Philippines and CIM

Do not pour soapy washing water into the vault.

Do not throw rubbish into the vault.
