SuSanA 2007-2019

Introduction and recent developments

Doreen Mbalo

The Sustainable Sanitation Alliance

- Network of 335 partner organisations and 10,000 individual members
- Links on the ground experiences with an engaged community
- Aims at promoting innovation and best practices

All people have access to adequate, sustainable sanitation, regardless of gender, age, income, culture or location.

Sanitation systems are important contributors to broader sustainable development.

5 Sustainability Criteria

1. Health and hygiene
2. Environmental and natural resources
3. Technology and operation
4. Finance and economics
5. Socio-cultural and institutional

The Secretariat

- Hosted by GIZ since 2007 with base funding from BMZ
- Secretariat is one of the key thematic areas under the GIZ Sector Programme – Sustainable Sanitation

SuSanA Products & Outputs

Online Presence

Share your work with one of the largest sanitation communities and explore other partners' work using:

- SuSanA Partner Profiles
- Project Database
- SFD Portal
- Events calendar

Learn more from a selection of quality-checked publications:

- Sustainable Sanitation Library

Watch, See and Recap:

- Sanitation Images on Flickr
- Webinars and Videos on YouTube Channel and SuSanA library
- Conference Documentation

Collaborative work:

- Working Group Wiki

Exchange, discuss, ask questions and share knowledge:

- Online Discussion Forum
- SuSanA Webinars
- Thematic Discussion Series (TDS)

Regional Chapters:

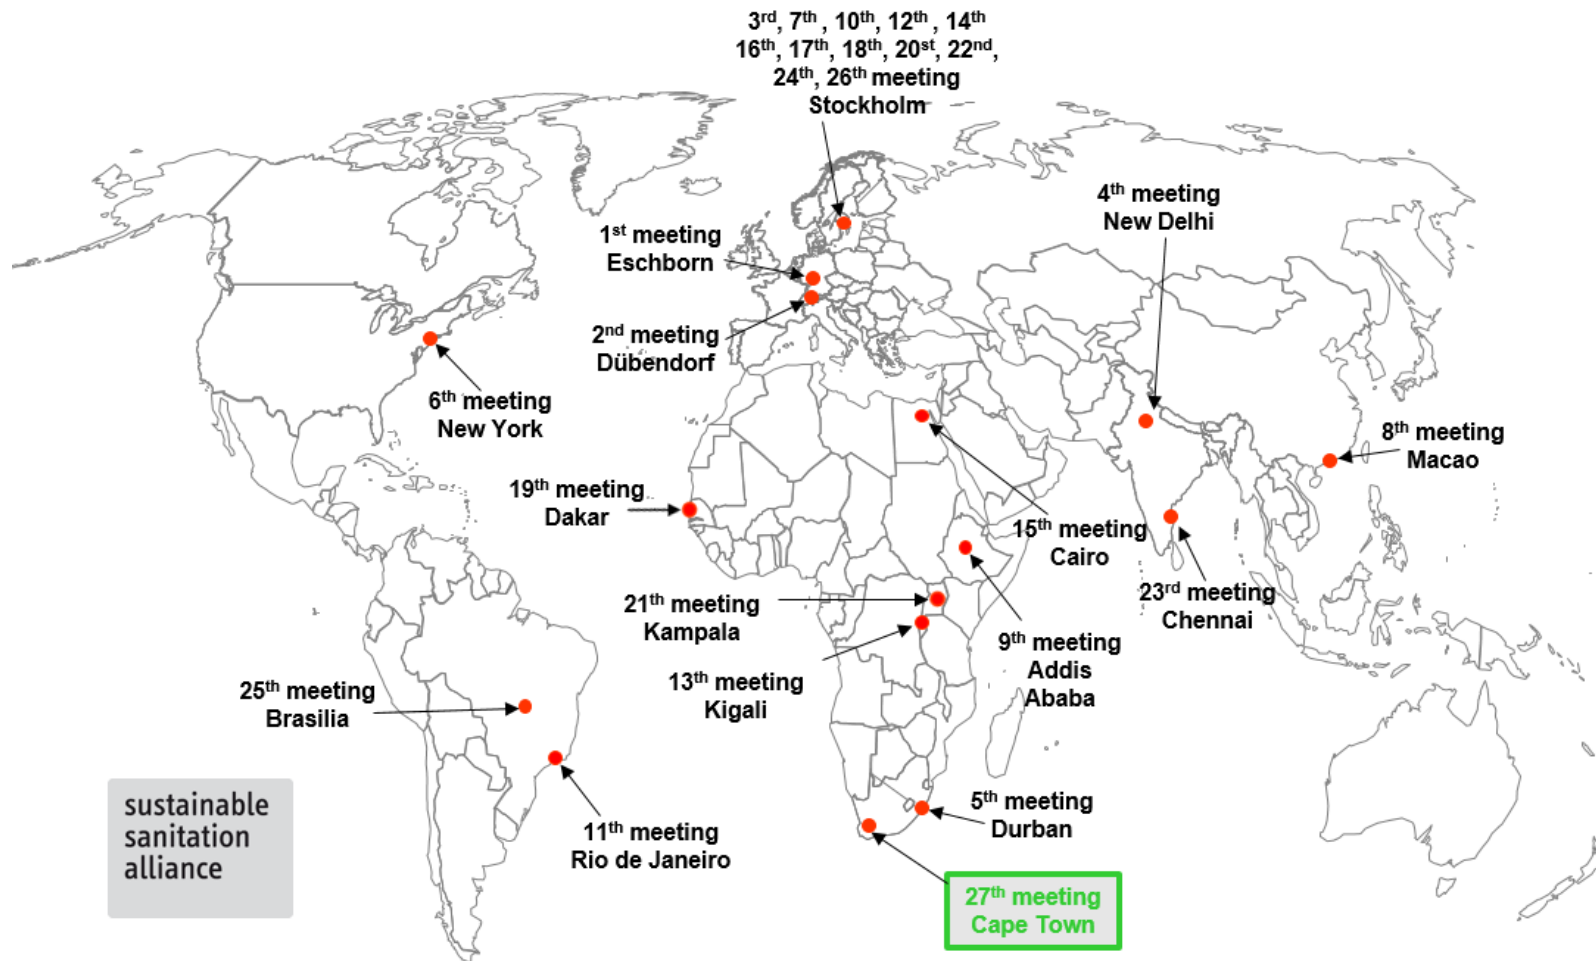

- India
- West Asia and North Africa (WANA)
- Latin America

SuSanA reach:

- 10,800 Newsmail subscribers
- 7,850 Facebook followers
- 4,360 Twitter followers

4. Sanitation systems and technology options
5. Food security and productive sanitation systems
6. Cities
7. Sustainable WASH in institutions and gender equity
8. Emergency and reconstruction situations
9. Public awareness, Advocacy and Civil Society Engagement
10. O&M and sustainable services
11. Groundwater protection
12. WASH and Nutrition
13. Behaviour Change

Working Group 7 'WASH in Institutions and Gender Equity' have updated their factsheet in accordance with the SuSanA vision and SDG

sustainable sanitation alliance

SuSanA Factsheet

Sustainable WASH in Schools (WinS)

Final Draft September 2018

1 Summary

The aims of this factsheet are to:

1. Advocate for sustainable WinS globally as anchored in the SDGs;
2. Highlight key solutions to existing challenges within WinS;
3. Explore various innovations and successful approaches using examples from low and middle income countries and outline best practice approaches and lessons learnt;
4. Identify the common principles that are needed to achieve the desired outcomes.

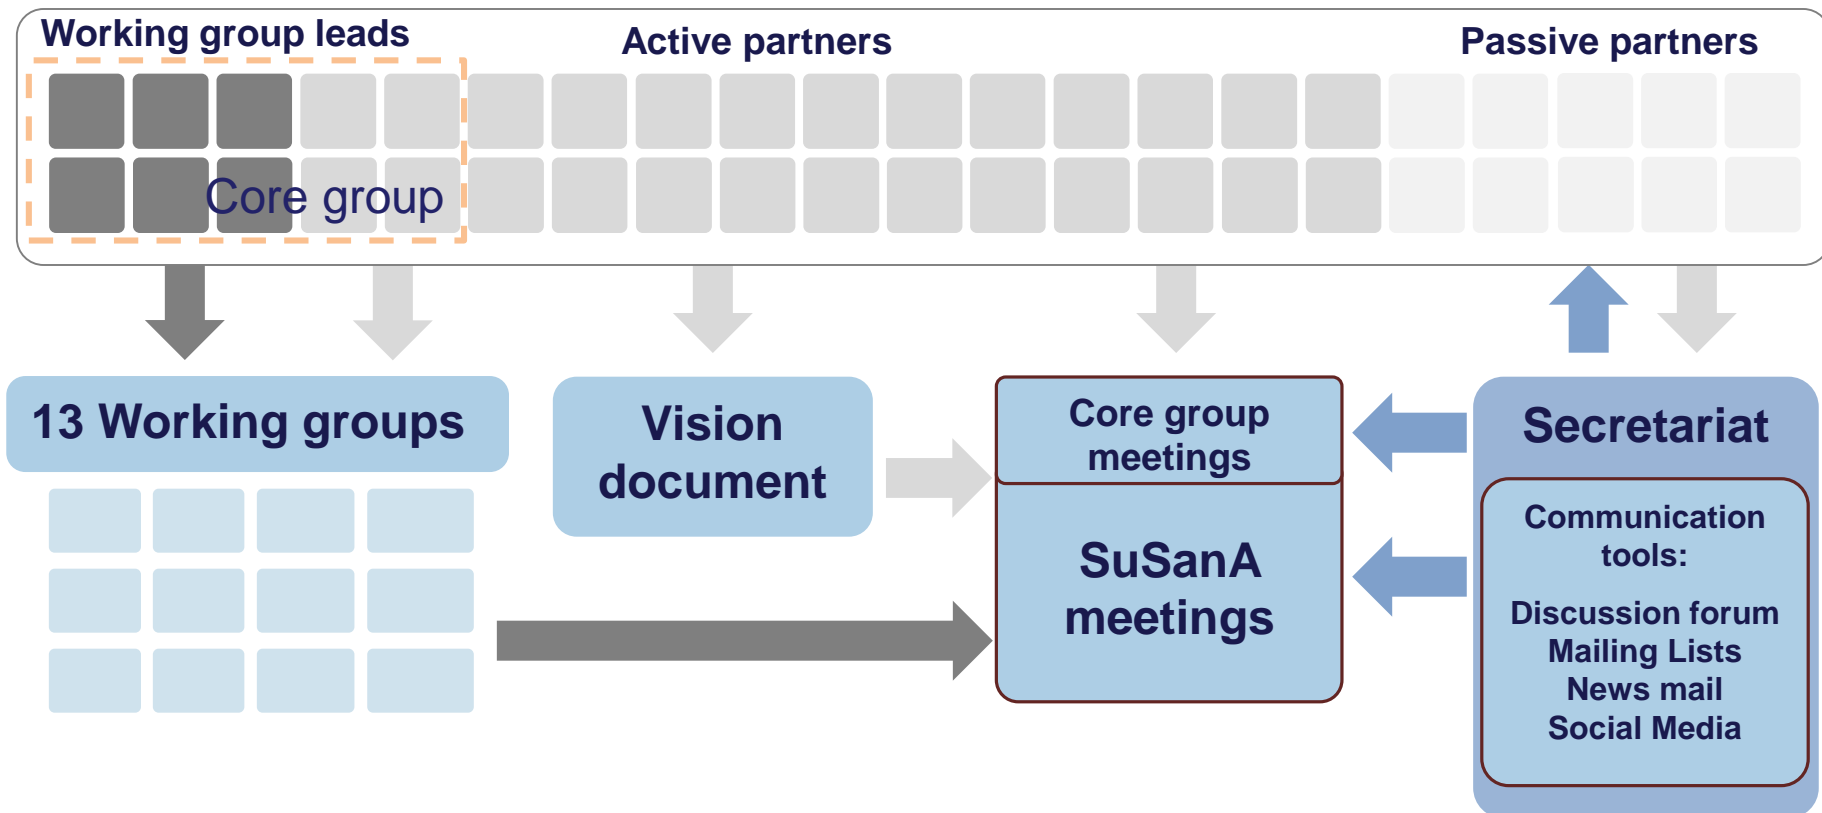

- Lack or poor enforcement of regulations and guidelines related to WinS and keeping the premises clean;
- Social and cultural norms when dealing with human excreta and menstrual hygiene material;
- Lack of stakeholder involvement.

4 WinS and the SDGs

In September 2015, member states of the United Nations agreed on the 2030 Agenda for Sustainable Development and its 17 Sustainable Development Goals (SDGs) with 168 targets. A comprehensive monitoring framework with targets, indicators and data sources to track progress is part and parcel of the SDGs.

Structure of SuSanA

SuSanA members and partner organisations

Overview:

sustainable
sanitation
alliance

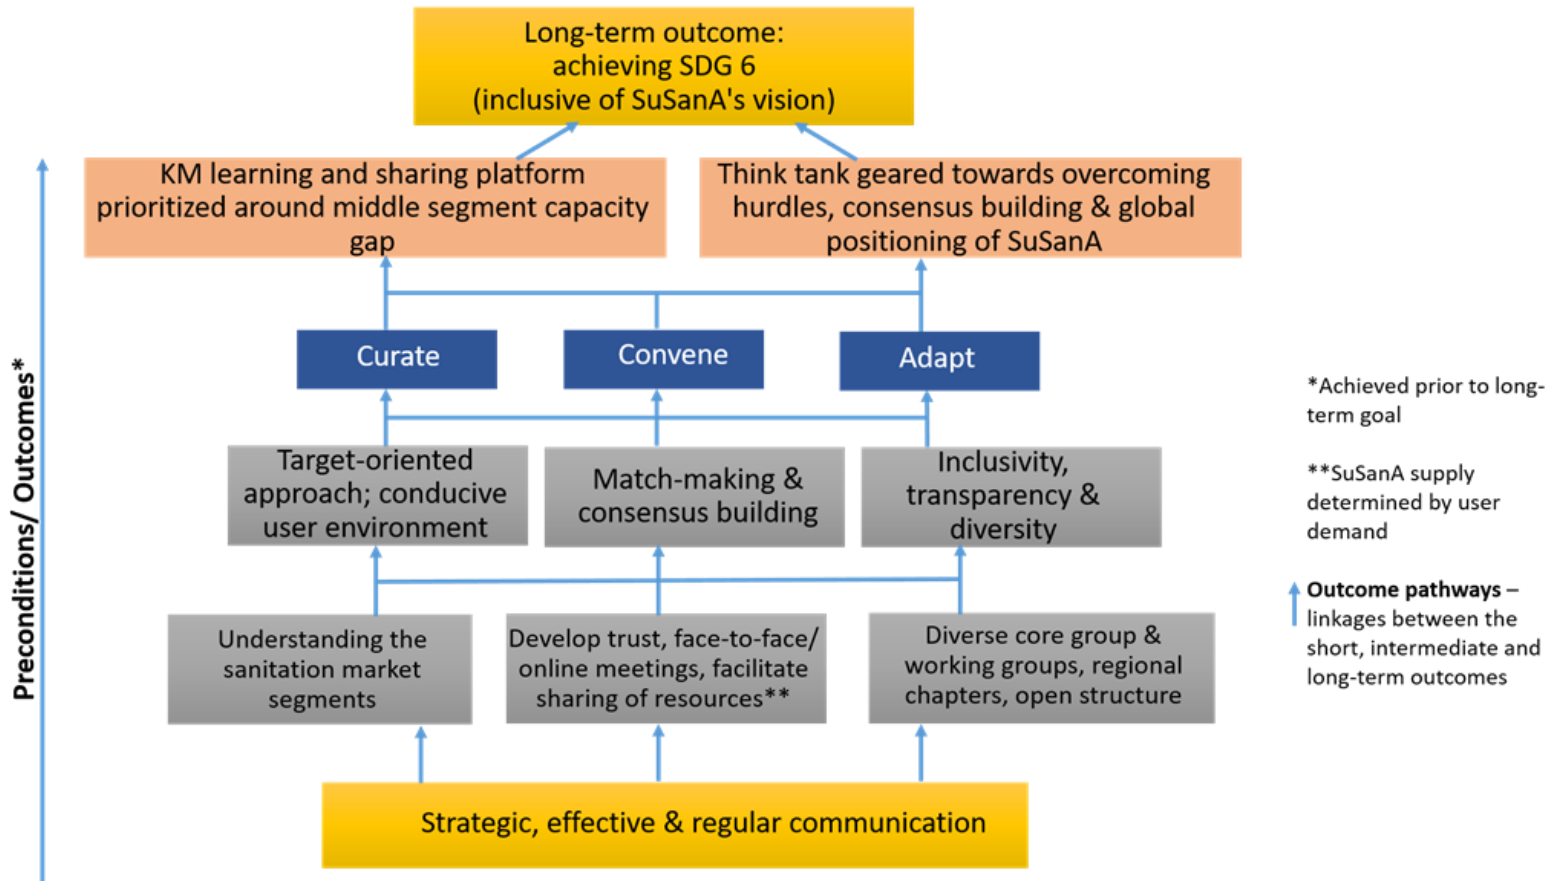

Who	What	When
SEI – BMGF	grant Phase III → KM and impact of SuSanA	2016-2018
<i>SEI – BMGF</i>	<i>grant Phase II → Forum</i>	<i>until June 2016</i>
GIZ – BMGF	grant SFD-Phase II	2015-2018
AguaTuya	Latinamerica Chapter	2018-2020
BORDA/SDC-cewas	Regional Chapter WANA	2016-2019
India Sanitation Coalition/Arghyam/Water for People	Indian Chapter	2015-2019
Various Partners	Thematic Online Discussions and Webinars	
<i>WaterAid</i>	<i>SanMark integration</i>	<i>2016/2017</i>
WSSCC	Sector Events Calendar	2016 - 2018
<i>Akvo</i>	<i>WG Wiki</i>	<i>until mid- 2017</i>

Outcomes:

1. Improved use of the SuSanA Platform
 2. Demonstrable improvements in the **impact** the use of the SuSanA Platform has on members' work in sanitation.
 3. Strengthened **governance** and **institutional** sustainability of SuSanA.
- User Experience Study (2017)
 - Stakeholder survey (3000 responses)
 - Development of a strategy orientation
 - Organizational study (ongoing)

Developing SuSanA's Theory of Change

SuSanA's Theory of Change

For us to achieve our long term outcome, SuSanA requires **strategic partnering**, an **optimal governance structure**, a **business model** and a **sustainable funding strategy**.

Focal areas

- Strengthen curation of SuSanA products and services with further web platform improvements
- Revamping of the Working Groups
- Increased collaboration with partner organizations and consensus building within the sector (South- South, Triangular)
- SuSanA meetings and in-country learning/exchange

More diversity , inclusion and collaboration with members and partners from middle and low income countries

Impact to date

- Sustainability firmly on the map
 - dedicated goal SDG 6
- Change in the discourse
- Becoming mainstream
- Improved cooperation and KM
- Interlinkages to other sectors e.g. humanitarian sector

Thank you!
